Getting Started

Step 1 Preparation

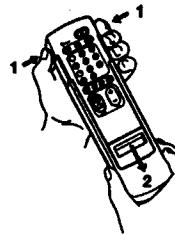

① Check the supplied accessories

When you've taken everything out of the carton, check that you have these items:

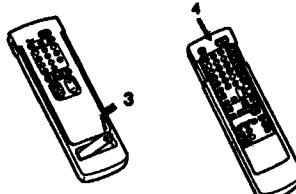

- RM-831 Remote Commander
- One IEC designation R6 battery

② Insert the battery into the Remote Commander

Remove the cover.

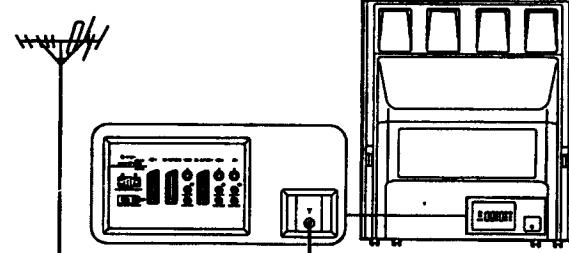

Check the correct polarities.

Refit the outside cover making sure that the Full-Function side is visible to use the menu in step 2.

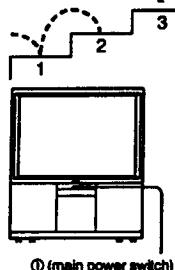

Note: Always remember to dispose of used batteries in an environmental friendly way.

③ Connect the aerial

Fit an IEC serial connector attached to 75-ohm coaxial cable (not supplied) to the 'T' socket at the rear of the TV.

Step 2 Adjusting Colour Registration (CONVERGENCE)

Once you have set up the TV, you can choose the language of the menu. Then you should converge the three colour layers (red, green, and blue).

Before you begin

- Check that the Full-Function side of the Remote Commander is visible.
- Locate Menu operation buttons on the Remote Commander. They are shaded in the illustration at the left.

① Choose a language

- 1 Depress (main power switch) on the TV unit. The TV will switch on. If the standby indicator on the TV is lit, press (or a number button on the Remote Commander.
- 2 Press MENU. The LANGUAGE menu appears. (See Fig. 1).
- 3 Select the language you want with Δ + or ∇ – and press OK.
- 4 Press \leftrightarrow to return to the main menu.

Fig. 1

② Display the menu

Press MENU.
The main menu appears. (See Fig. 2)

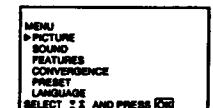

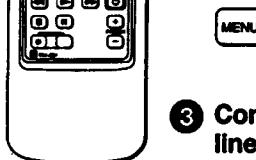

Fig. 2

③ Converge the red, green and blue lines

- 1 Select "CONVERGENCE" with Δ + or ∇ – and press OK. The CONVERGENCE menu appears. (See Fig. 3.)
- 2 Select "the line" you want to adjust with Δ + or ∇ –. Key to line adjustment symbols:
I (red vertical – left/right adjustment)
– (red horizontal – up/down adjustment)
I (blue vertical – left/right adjustment)
– (blue horizontal – up/down adjustment)
- 3 Press OK. The line to adjust is selected.
- 4 Press Δ + or ∇ – to converge the selected line with the centre green line and press OK.

To move up (horizontal line)	Press Δ +
To move right (vertical line)	
To move down (horizontal line)	Press ∇ –
To move left (vertical line)	

- 5 Repeat steps 2 to 4 to adjust the other lines, until all the lines have overlapped to form a white cross. (See Fig. 4.)
- 6 Press MENU to return to TV picture.

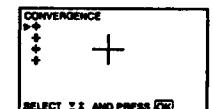

Fig. 3

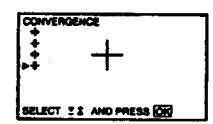

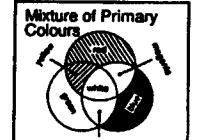

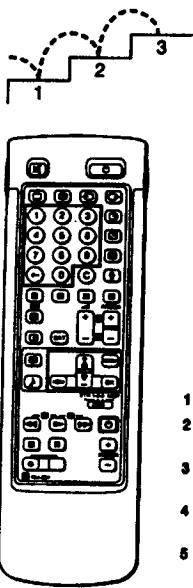

Fig. 4

Step 3 Tuning in to TV Stations

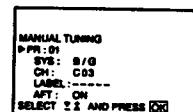

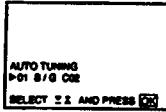

To go back to the main menu
Keep pressing \leftarrow .

To stop automatic channel presetting
Press \leftarrow on the Remote Commander.

Notes
• After presetting the channels automatically, you can check which channels are stored on which programme positions.

• You can exchange the programme positions to have them appear on screen in the order you like. For details, see "Exchanging the Programme Positions" on page 10.

You can preset the channels (up to 100 channels) by choosing either the automatic or manual method. The automatic method is easier if you want to preset all receivable channels at once. Use the manual method if you only have a few channels and want to preset channels one by one.

Preset Channels Automatically

- 1 Press MENU to display the main menu.
- 2 Select "PRESET" with $\Delta+$ or $\nabla-$ and press OK. The PRESET menu appears. (See Fig. 5.)
- 3 Select "AUTO TUNING" with $\Delta+$ or $\nabla-$ and press OK. The AUTO TUNING menu appears. (See Fig. 6.)
- 4 Select the programme with \leftarrow - and enter the digit numbers from which you want to start presetting.
- 5 Press OK. Select if necessary the TV broadcast system with $\Delta+$ or $\nabla-$ and press OK. (B/G for western European countries, D/K for eastern European countries, L for France and I for the United Kingdom.)
- 6 Using $\Delta+$ or $\nabla-$, select C (to start presetting regular channels) or S (to start presetting cable channels) and press OK. The automatic channel presetting starts. When presetting is finished, the preset menu reappears. All available channels are now stored on successive number buttons. If you want to change to another broadcasting system, repeat steps 3 to 5.
- 7 Press MENU to return to TV picture.

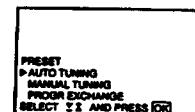

Fig. 5

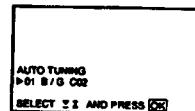

Fig. 6

Use this method if there are only a few channels in your area to preset or if you want to preset channels one by one.

If you have made a mistake
Press \leftarrow to go back to the previous position.

To return to the main menu
Keep pressing \leftarrow .

Preset Channels Manually

- 1 Press MENU to display the main menu.
- 2 Select "PRESET" with $\Delta+$ or $\nabla-$ and press OK. (See Fig. 7.)
- 3 Select "MANUAL TUNING" with $\Delta+$ or $\nabla-$ and press OK. The MANUAL TUNING menu appears. (See Fig. 8.)
- 4 Using $\Delta+$ or $\nabla-$, select the programme position to which you want to preset a channel, and press OK. You can also select the programme position with the number buttons (e.g., for programme 24, press \leftarrow , 2 and 4).
- 5 Select, if necessary, the TV broadcast system (B/G for western European countries, D/K for eastern European countries, L for France and I for the United Kingdom) with $\Delta+$ or $\nabla-$. Then press OK.
- 6 Using $\Delta+$ or $\nabla-$, select C (to start presetting regular channels) or S (to start presetting cable channels) and press OK.
- 7 Press $\Delta+$ or $\nabla-$ until the channel you want appears on the screen. You can also select the channel directly using the number buttons. Press C (once for VHF/UHF channels, twice for cable TV channels), then the number buttons (e.g., for channel 5, press 0 and 5). Then press OK.

To preset other channels

Repeat steps 4 to 7.

To return to TV picture

Press MENU.

GB

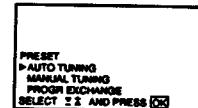

Fig. 7

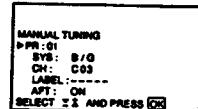

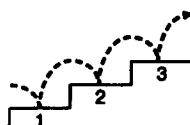

Fig. 8

Additional Presetting Functions

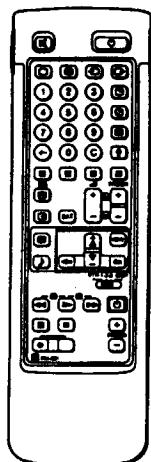

This section shows you additional presetting functions such as exchanging or skipping programme positions, captioning a station name, and manual fine-tuning.

You can skip this section, if not needed.

Before you begin

- Check that the "Full Function side of the Remote Commander is visible.
- Locate the Menu operation buttons.

PROGRAMME EXCHANGE

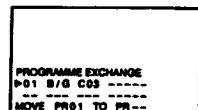

If you have made a mistake
Press \leftarrow to go back to the previous position.
To go back to main menu
Keep pressing \leftarrow .

Exchanging Programme Positions

With this function, you can exchange the programme positions to a preferable order.

- Press MENU to display the main menu.
- Select "PRESET" with $\Delta+$ or $\nabla-$ and press OK. The PRESET menu appears.
- Select "PROGRAMME EXCHANGE" with $\Delta+$ or $\nabla-$ and press OK. The PROGRAMME EXCHANGE menu appears. (See Fig. 9.)
- Using $\Delta+$ or $\nabla-$, select the programme position you want to exchange with another and press OK.
- Using $\Delta+$ or $\nabla-$, select the programme position to be exchanged and press OK. Now the two programme positions have been exchanged.
- Repeat steps 4 and 5 to exchange other programme positions.
- Press MENU to return to TV picture.

Tuning in to a Channel Temporarily

You can tune in to a channel temporarily, even when it has not been preset. Use the buttons on the Full-Function side of the Remote Commander.

- Press C on the Remote Commander for regular channels, or twice to get cable channels. The indication "C" ("S" for cable channels) appears on the screen. (See Fig. 10.)
- Enter the double-digit channel number using the number buttons (e.g. for channel 4, first press 0, then 4). The channel appears. However, the channel will not be stored.

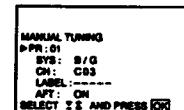

MANUAL TUNING

Skipping Programme Positions

You can skip unused programme positions when selecting programmes with the PROGR +/- buttons. However, the skipped programmes may still be called up when you use the number buttons.

- Press MENU to display the main menu.
- Select "PRESET" with $\Delta+$ or $\nabla-$ and press OK. The PRESET menu appears.
- Select "MANUAL TUNING" with $\Delta+$ or $\nabla-$ and press OK. The MANUAL TUNING menu appears. (See Fig. 11.)
- Using $\Delta+$ or $\nabla-$, select the programme position which you want to skip and press OK.
- Press $\Delta+$ or $\nabla-$ until "----" appears in the SYS position. (See Fig. 12.)
- Press OK.
- When you select programmes using the PROGR +/- buttons, the programme position will be skipped.
- Repeat steps 4 to 6 to skip other programme positions.
- Press MENU to return to TV picture.

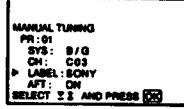

MANUAL TUNING

Captioning a Station Name

You can "name" a channel using up to five characters (letters or numbers) to be displayed on the TV screen (e.g. BBC1). Using this function, you can easily identify which channel you are watching.

- Press MENU to display the main menu.
- Select "PRESET" with $\Delta+$ or $\nabla-$ and press OK. The PRESET menu appears.
- Select "MANUAL TUNING" with $\Delta+$ or $\nabla-$ and press OK. The MANUAL TUNING menu appears.
- Select "PR" with $\Delta+$ or $\nabla-$ and press OK.
- Select programme position you want to caption with $\Delta+$ or $\nabla-$ and press OK.
- Select "LABEL" with $\Delta+$ or $\nabla-$ and press OK.
- Select a letter or number with $\Delta+$ or $\nabla-$ and press OK. Select other characters in the same way. If you want to leave an element blank, select - and press OK. (See Fig. 13.)
- Repeat steps 4 to 7 to caption names for other channels.
- Press MENU to return to TV picture.

Operating Instructions

MANUAL TUNING

Manual Fine-Tuning

Normally, the AFT (automatic fine-tuning) is already operating. However, if the picture is distorted, you can use the manual fine tuning function to obtain better picture reception.

- 1 Press MENU to display the main menu.
- 2 Select "PRESET" with $\Delta+$ or $\nabla-$ and press OK. The PRESET menu appears.
- 3 Select "MANUAL TUNING" with $\Delta+$ or $\nabla-$ and press OK. The MANUAL TUNING menu appears.
- 4 Select "PR" with $\Delta+$ or $\nabla-$ and press OK.
- 5 Select programme position you want to manually fine-tune with $\Delta+$ or $\nabla-$ and press OK.
- 6 Select "AFT" with $\Delta+$ or $\nabla-$ and press OK.
- 7 Select "OFF" with $\Delta+$ or $\nabla-$ and press OK. (See Fig. 14.)
- 8 Fine-tune the channel with $\Delta+$ or $\nabla-$ so that you get the best TV reception. As you press the cursor buttons, the frequency changes from -128 to +127.
- 9 After fine tuning, press OK. Now the fine-tuned level is stored.
- 10 Repeat steps 4 to 9 to fine-tune other channels.
- 11 Press MENU to return to TV picture.

To reactivate AFT (automatic fine tuning)
Repeat from the beginning and select "ON" in step 7.

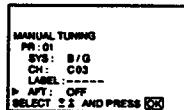

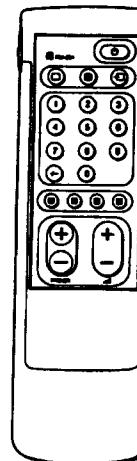

Fig. 14

Watching the TV

If no picture appears when you depress \odot on the TV and if the standby indicator on the TV is lit, the TV is in standby mode.
Press \square or one of the number buttons to switch it on.

This section explains the basic functions you use while watching TV. Most of the operations can be done using the simple side of the Remote Commander.

Switching the TV on and off

Switching on

Depress \odot (main power switch) on the TV unit.

Switching off temporarily

Press \odot on the Remote Commander.

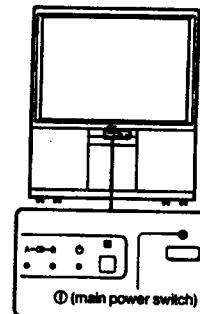

The TV enters standby mode and the standby indicator on the front of the TV lights up.

To switch on again

Press \odot , PROGR +/-, or one of the number buttons on the Remote Commander.

Switching off completely

Depress \odot (main power switch) on the TV unit.

Selecting TV Programmes

Press PROGR +/- or press the number buttons.

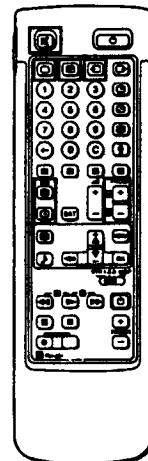

To select a double-digit number

Press +/-, then the numbers.

For example, if you want to choose 23, press +/-, 2, and 3.

Adjusting the Volume

Press Δ +/-.

For details of the teletext operation, refer to page 19.

For details of the video input picture, refer to page 23.

Operating the TV Using the Buttons on the TV

With the \leftarrow/\rightarrow buttons on the TV, you can select programmes, adjust the volume, and select video input sources.

To switch on the TV from the standby mode

Press the \leftarrow/\rightarrow buttons.

To reset picture and sound controls to the factory preset level (RESET function)

Press the \leftarrow/\rightarrow buttons simultaneously.

To select TV programmes

Press F_4 repeatedly until the \square appears, then press the \leftarrow/\rightarrow button to select.

To adjust the volume

Press F_4 repeatedly until the \square appears, then press the \leftarrow/\rightarrow button to adjust. (See Fig. 15.)

To select video input sources

Press F_4 repeatedly until the \square (video input indication) appears, then press the \leftarrow/\rightarrow button to select. Each pressing the button, the indication changes as follows.

AV1—RGB—AV2—YC2
↑ ↓
YC4—AV4—YC3—AV3

After the video input source is selected, the \square appears. Press the \leftarrow/\rightarrow button to adjust the volume. (See Fig. 16.)

Watching Teletext or Video Input

Watching teletext

- 1 Press \square to view the teletext.
- 2 For teletext operation, enter a 3-digit page number with the number buttons to select a page.
- For fasted operation, press one of the coloured buttons.
- For both operations, press \square (PAGE +) for the next page or \square (PAGE -) for the preceding page.
- 3 To go back to the normal TV picture, press \square .

Watching a video input picture

- 1 Press \square repeatedly until the desired video input appears.
- 2 To go back to the normal TV picture, press \square .

More Convenient Functions

Use the Full-Function side of the Remote Commander.

Displaying the on screen indications

- Press \square once to display all the indications.
- Press \square again to make the indications disappear.

Muting the sound

Press \square .

To resume normal sound, press \square again.

Displaying the time

Press \square . This function is available only when teletext is broadcast. To make the time display disappear, press \square again.

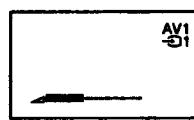

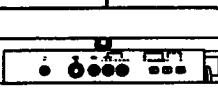

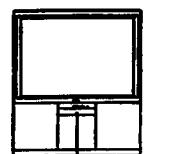

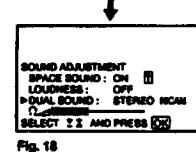

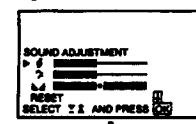

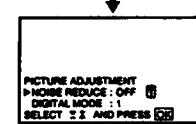

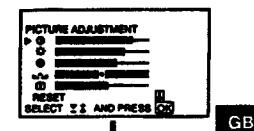

Fig. 16

Adjusting and Setting the TV Using the Menu

Adjusting the Picture and Sound

Although the picture and sound are adjusted at the factory, you can adjust them to suit your own taste. You can also select dual sound (bilingual) programmes when available or adjust the sound for listening with the headphones.

- 1 Press \square (for picture) or \square (for sound) on the remote Commander, or
Press MENU and select "PICTURE" or "SOUND," then press OK. The PICTURE ADJUSTMENT or SOUND ADJUSTMENT menu appears. (See Fig. 17 or Fig. 18.)
- 2 Using Δ or ∇ , select the item you want to adjust and press OK. To move up/down:
From \square position, press ∇ to move down.
From \square position, press Δ to move up.
 \square means next page.
 \square means previous page.
- 3 Adjust the setting with Δ or ∇ and press OK. For the effect of each control, see the table below.
- 4 Repeat steps 2 and 3 to adjust other items.
- 5 Press MENU to return to TV picture.

Effect of each control

PICTURE ADJUSTMENT	Effect
0 (contrast)	Less — More
1 (brightness)	Darker — Brighter
2 (colour)	Less — More
3 (hue)	Greenish — Reddish
4 (sharpness)	Softer — Sharper
RESET	Resets picture to the factory preset levels.
NOISE REDUCE	OFF: Normal ON: When reducing the picture noise
DIGITAL MODE	1: Line Flicker reduction on. 2: Line Flicker reduction off.

SOUND ADJUSTMENT	Effect
1 (Treble)	Less — More
2 (Bass)	Less — More
3 (Balance)	More left — More right
RESET	Resets sound to the factory preset levels.
SPACE SOUND	OFF: Normal ON: Obtain acoustic sound effect.
LOUDNESS	OFF: Normal ON: When listening to low volume sound.
DUAL SOUND*	A: left channel B: right channel Stereo mono STEREO ↔ MONO The selected mode of the A-CD-B Indicator on the TV lights up.
4 (Headphones)	Less —

*When receiving a NICAM programme

NICAM stereo/monaural STEREO NICAM → MONO

NICAM bilingual NICAM A → NICAM B → MONO

PIP (Picture In Picture)

GB

FEATURES

To switch off the timer
Select "OFF" in step 3.

To check the
remaining time
Press G .

Using the SLEEP TIMER

You can select a time period after which the TV automatically switches into standby mode.

- 1 Press MENU to display the main menu.
- 2 Select "FEATURES" with $\Delta+$ or $\nabla-$ and press OK. The FEATURES menu appears.
- 3 Select "SLEEP TIMER" with $\Delta+$ or $\nabla-$ and press OK. (See Fig. 19.) The time period option changes colour.
- 4 Select the time period with $\Delta+$ or $\nabla-$. The time period changes as follows:
OFF \rightarrow 0:30 \rightarrow 1:00 \rightarrow 1:30 \rightarrow 2:00
- 5 After selecting the time period, press OK. The cursor moves back to the left margin and the timer starts counting. One minute before the TV switches into standby mode, a message is displayed on the screen.
- 6 Press MENU to return to TV picture.

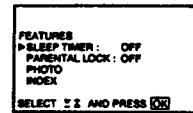

Fig. 19

FEATURES

If you try to select a programme that has been blocked
The message
"LOCKED" appears on the blank TV screen.

PARENTAL LOCK

You can prevent undesirable broadcasts from appearing on the screen. We suggest you use this function to prevent children from watching programmes which you consider unsuitable.

- 1 Select the TV programme which you want to block.
- 2 Press MENU to display the main menu.
- 3 Select "FEATURES" with $\Delta+$ or $\nabla-$ and press OK. The FEATURES menu appears.
- 4 Select "PARENTAL LOCK" with $\Delta+$ or $\nabla-$ and press OK.
- 5 Select "ON" with $\Delta+$ or $\nabla-$ and press OK. (See Fig. 20.)
- 6 Press MENU to return to TV picture.

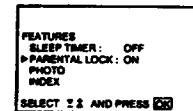

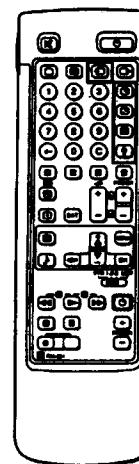

Fig. 20

Cancelling PARENTAL LOCK

- 1 On the PARENTAL LOCK menu, select "OFF" with $\Delta+$ or $\nabla-$.
- 2 Press OK.

Note
RGB input source
cannot be displayed in
PIP.

With this function you can display a "PIP screen" (small picture) within the main TV picture. In this way you can watch or monitor the video output from any connected equipment (for example from a VTR) while watching TV or vice versa. For information about connection of other equipment, refer to page 22.

Switching PIP on and off

Press G .
The PIP screen will be displayed. The PIP picture will come from the source chosen when the TV was last used.

To switch PIP off
Press G again.

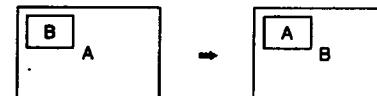

Selecting a PIP source

- 1 Press t .
The symbol t will be displayed at the bottom, left-hand corner of the screen.
- 2 Press -D repeatedly until the desired PIP source is indicated (e.g. TV, AV1, AV2, YC2, AV3, YC3, AV4, YC4).

Note
If no video source has been connected, the PIP picture will be noisy.

Swapping screens

Press Q .
The main screen will switch the picture with the PIP screen.

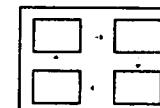

Notes

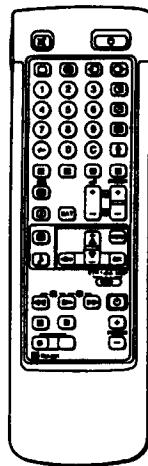

- If a TV programme is on the PIP screen and a video source on the main picture, and you want to change channels, first press t and then the programme number buttons or PROGR +/- .
- Swapping screens takes about 2 seconds after pressing Q .
- After swapping screens if the colour systems of the main and PIP pictures are different, the PIP picture first appears in black and white and then in colour.

Changing the position of the PIP

Press G repeatedly to change the position of the PIP screen within the main screen. There are four different positions available.

FEATURES

Displaying Frame-by-frame Pictures (PHOTO)

- 1 Press MENU to display the main menu.
- 2 Select "FEATURES" with $\Delta+$ or $\nabla-$ and press OK. The FEATURES menu appears. (See Fig. 21.)
- 3 Select "PHOTO" with $\Delta+$ or $\nabla-$ and press OK. (See Fig. 22.) The preset programme is displayed in nine separated screen in sequence. (See Fig. 23.)

To restore the normal picture

Press OK and MENU.

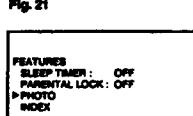

Fig. 23

Checking All the Preset Programmes (INDEX)

- 1 Press MENU to display the main menu.
- 2 Select "FEATURES" with $\Delta+$ or $\nabla-$ and press OK. The FEATURES menu appears. (See Fig. 24.)
- 3 Select "INDEX" with $\Delta+$ or $\nabla-$ and press OK. (See Fig. 25.) The nine preset programmes appear in the separated screen in sequence, switching the picture for each seconds. After all the nine programmes are displayed, each sequence switch the picture with the sound for each five seconds. Press $\Delta+$ also switches to the next nine programmes. (See Fig. 26.)

To restore the normal picture

Press OK and MENU.

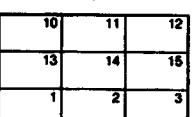

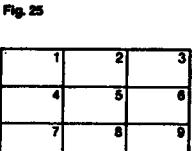

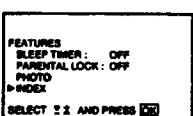

Fig. 26

Teletext

GB

TV stations broadcast an information service called Teletext via the TV channels. Teletext service allows you to receive various information pages such as weather reports or news at any time you want. For advanced teletext operation, use the buttons on the Full-Function side of the Remote Commander.

Direct Access Functions

Switching Teletext on and off

- 1 Select the TV channel which carries the teletext broadcast you want to watch.
- 2 Press \ominus to switch on teletext. A teletext page will be displayed (usually the index page). If there is no teletext broadcast, "No text available" is displayed on the information line at the top of the screen.

To switch teletext off

Press \odot .

Selecting a teletext page

With direct page selection

Use the number buttons to input the three digits of the chosen page number. If you have made a mistake, type in any three digits. Then re-enter the correct page number. If the requested page is not available at that moment, a message will be displayed.

Accessing next or preceding page

Press \oplus (PAGE+) or \ominus (PAGE-). The next or preceding page appears.

Superimposing the teletext display on the TV programme

- Press \ominus once in teletext mode or twice in TV mode.
- Press \ominus again to resume normal teletext reception.

Preventing a teletext page from being updated

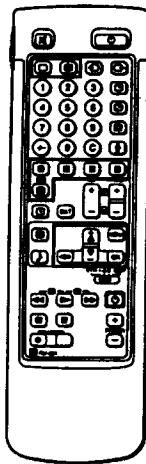

- Press \ominus (HOLD). The HOLD symbol "B" is displayed on the information line.
- Press \ominus to resume normal teletext reception.

Using Fastext

With Fastext you can access pages with one key stroke.

When a Fastext page is broadcast, a colour-coded menu will appear at the bottom of the screen. The colours of this menu correspond to the red, green, yellow and blue buttons on the Remote Commander.

Press the corresponding coloured button on the Remote Commander which corresponds to the colour-coded menu. The page will be displayed after a few seconds.

Note
Some of the features
may not be available
depending on the
teletext service.

Using the Teletext Menu

This TV is provided with a menu-guided teletext system. When teletext is switched on, you can use the menu buttons to operate the teletext menu. Select the teletext menu functions in the following way:

- 1 Press MENU. The menu will be superimposed on the teletext display. (See Fig. 27.)
- 2 Using $\Delta+$ or $\nabla-$, select the teletext function you want and press OK.

INDEX

The index will give you an overview of the contents of the teletext and the page numbers.

ENLARGING

For convenient reading of a teletext page, you can enlarge the teletext display with the ability to scroll up and down. After having selected the function, an information line TOP/BOTTOM/FULL will be displayed. (See Fig. 28.)

To enlarge the upper half with "TOP," select "TOP" and hold down the $\nabla-$. To enlarge the lower half with "BOTTOM," select "BOTTOM" and hold down the $\Delta+$. The picture can be scrolled up to 12 steps in each direction. Press OK for "FULL" to resume the normal size.

Press \odot to resume normal teletext reception.

TEXT CLEAR

After selecting the function, you can watch a TV programme while waiting for a teletext page to be displayed. (See Fig. 29.)

Press \odot to resume normal teletext reception.

SUBTITLES

Your teletext service will inform you if a TV programme has subtitles. After having selected the function the subtitles will be displayed.

REVEAL

Sometimes pages contain concealed information, such as answers to a quiz. The REVEAL option lets you disclose the information. After having selected the function, concealed information will be displayed.

By choosing REVEAL again on the menu, the concealed information will be canceled.

Press \odot to resume normal teletext reception.

Fig. 27

Press OK to select
"OFF" for the TIME
PAGE setting to cancel
the request.

Fig. 28

To cancel the request
Select SUBPAGE and
press OK.

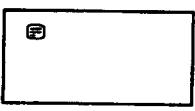

Fig. 29

Note:
"TIME PAGE" and
"SUBPAGE" features
may not be available
depending on the
teletext service.

TIME PAGE

Your teletext service will inform you, if a time coded page is available. You may have a page (e.g. an alarm page) displayed at a certain time.

- 1 Using $\Delta+$ or $\nabla-$, select "ON." Press OK. The TV programme you were watching before you selected TIME PAGE is restored. An information window will be displayed at the bottom of the page.
- 2 To select the desired page, enter three digits for the page number (e.g. 452) using the number buttons and press OK.
- 3 To select the desired time, enter four digits for the desired time (e.g. 1800) using the number buttons and press OK. The selected time is displayed at the top in the left-hand corner. At the requested time, the page will be displayed. Press \odot to resume normal teletext mode.

SUBPAGE

You may want to select a particular teletext page from several subpages which are rotated automatically. After having selected the function, an information line will be displayed.

To select the desired subpage, enter four digits using PROGR +/- or the number buttons (e.g. enter 0002 for the second page of a sequence).

Connecting and Operating Optional Equipment

Connecting Optional Equipment

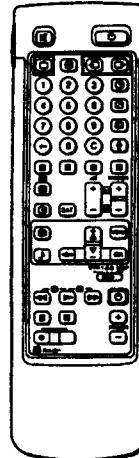

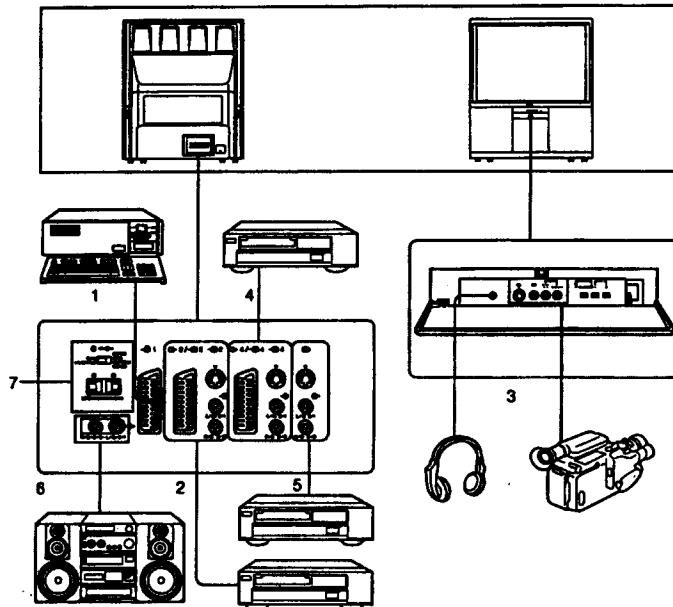

You can connect optional audio-video equipment to this TV such as a VCR, video disc player, and stereo system.

To connect a VCR using the T terminal
Connect the serial output of the VCR to the serial terminal T of the TV.
We recommend that you tune in the video signal to programme number "1." For details see "Preset channels manually" on page 9.

If the picture or the sound is distorted
Move the VCR away from the TV.

S/video Input (Y/C input)
Video signals may be separated into Y (luminance or brightness) and C (chrominance) signals. Separating the Y and C signals prevents them from interfering with one another, and therefore improves picture quality (especially luminance). This TV is equipped with 3 S Video input jacks through which these separated signals can be input directly.

When connecting a monaural VCR
Connect only the white - \odot jack to both the TV and VCR.

Selecting Input

This section explains how to view the video input picture (of the video source connected to your TV).

Press - \odot repeatedly to select the input source.

The symbol of the selected input source will appear. (See Fig. 30.)

To go back to the normal TV picture
Press \odot .

Fig. 30

Symbol	Input signal
- \odot 1	Audio/video input through the - \odot 1 connector
- \odot	Audio/RGB input through the - \odot 1 connector
- \odot 2	Audio/video input through the G-2/- \odot 2 or - \odot 2 connector (4-pin connector)
- \odot 3	Audio/video input through - \odot 3 and - \odot 3 on the front
- \odot 3	Audio/S video input through the - \odot 3 (4-pin connector) and - \odot 3 connectors
- \odot 4	Audio/video input through the G-4/- \odot 4 connector
- \odot 4	Audio/S video input through the G-4/- \odot 4 or - \odot 4 connector(4-pin connector)

You can also select the input mode using the - \odot and - \odot buttons on the TV. In this case, first select - \odot , and then press - \odot buttons to select the input.

Selecting Output from the G-2/- \odot 2 Connector

You can select the output signal from the G-2/- \odot 2 connector. The G-2/- \odot 2 connector outputs the input signals from the other connectors as indicated below.

Press G- repeatedly to select the output.

The symbol of the selected output source appears. (See Fig. 31.)

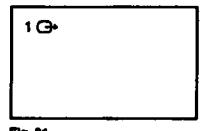

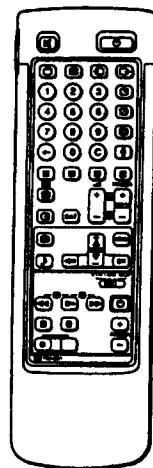

Fig. 31

Symbol	Output signal of the G-2/- \odot 2 connector
1 G-	Audio/video signal from the - \odot 1 connector
2 G-	Audio/video signal from the G-2/- \odot 2 connector
2 \odot -	Audio/S video signal from the G-2/- \odot 2 or - \odot 2 connector (4 pin)
3 G-	Audio/video signal from the - \odot 3, - \odot 3 connectors
3 \odot -	Audio/S video signal from the - \odot 3, - \odot 3 connectors
4 G-	Audio/video signal from the G-4/- \odot 4 connector
4 \odot -	Audio/S video signal from the G-4/- \odot 4 or - \odot 4 connector (4 pin)
TV G-	Audio/video signal from the T serial terminal

For Your Information

Remote Control of Other Sony Equipment

You can use the TV Remote Commander to control most of Sony remote-controlled video equipment such as: beta, 8 mm and VHS VCRs and video disc players.

Tuning the Remote Commander to the equipment

- 1 Set the VTR 1/2/3 MDP selector according to the equipment you want to control:
VTR 1: Beta VCR
VTR 2: 8 mm VCR
VTR 3: VHS VCR
MDP: Video disc player
- 2 Use the buttons indicated in the illustration to operate the additional equipment.
If your video equipment is furnished with a COMMAND MODE selector, set this selector to the same position as the VTR 1/2/3 MDP selector on the TV Remote Commander.
If the equipment does not have a certain function, the corresponding button on the Remote Commander will not operate.

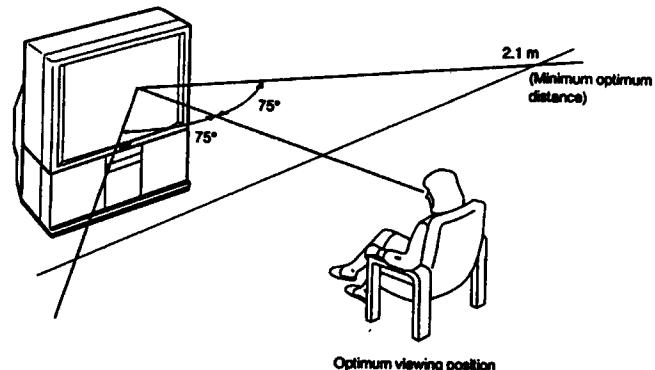

When recording
When you use the (record) button, make sure to press this button and the one to the right of it simultaneously.

Optimum Viewing Area

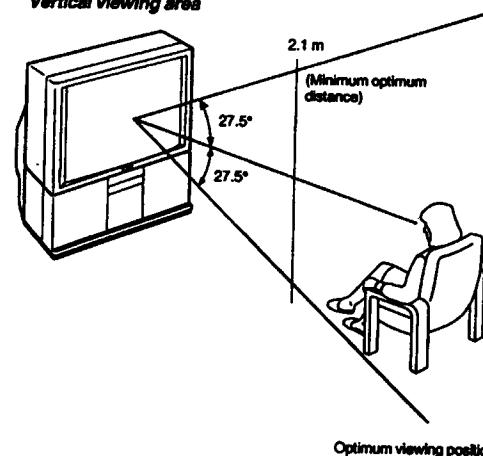

For the best picture quality, try to position the projection TV so that you can view the screen from within the areas shown below.

2-1-9. MIRROR COVER ASSY REMOVAL

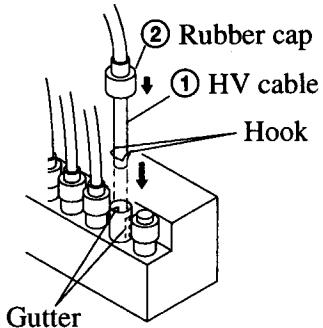

2-1-10. HIGH-VOLTAGE CABLE INSTALLATION AND REMOVAL

(1) Remover

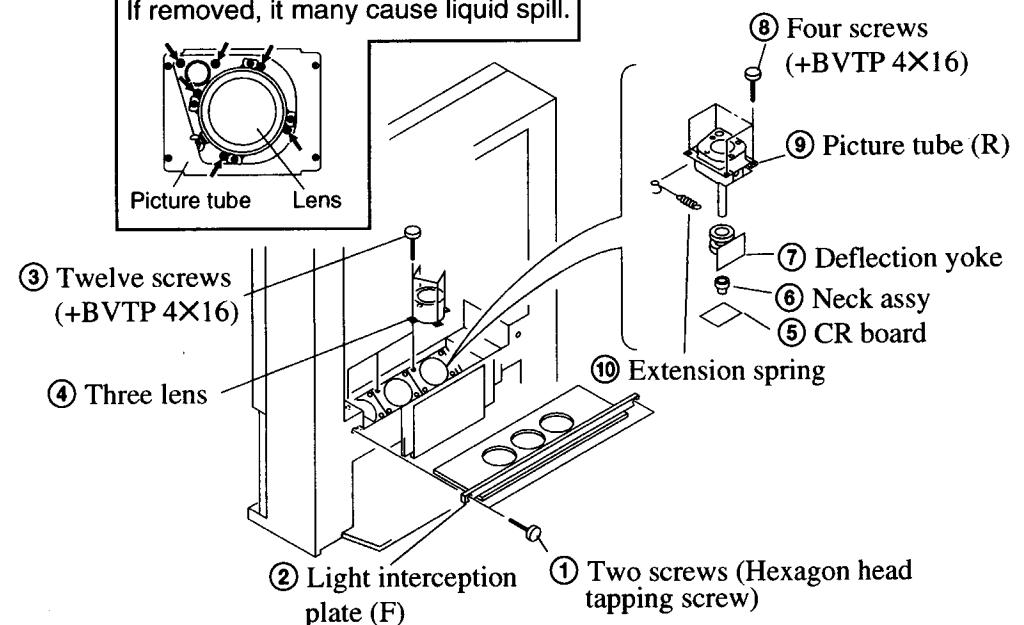

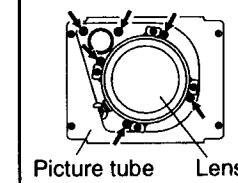

(2) Installation

2-1-11. PICTURE TUBE REMOVAL

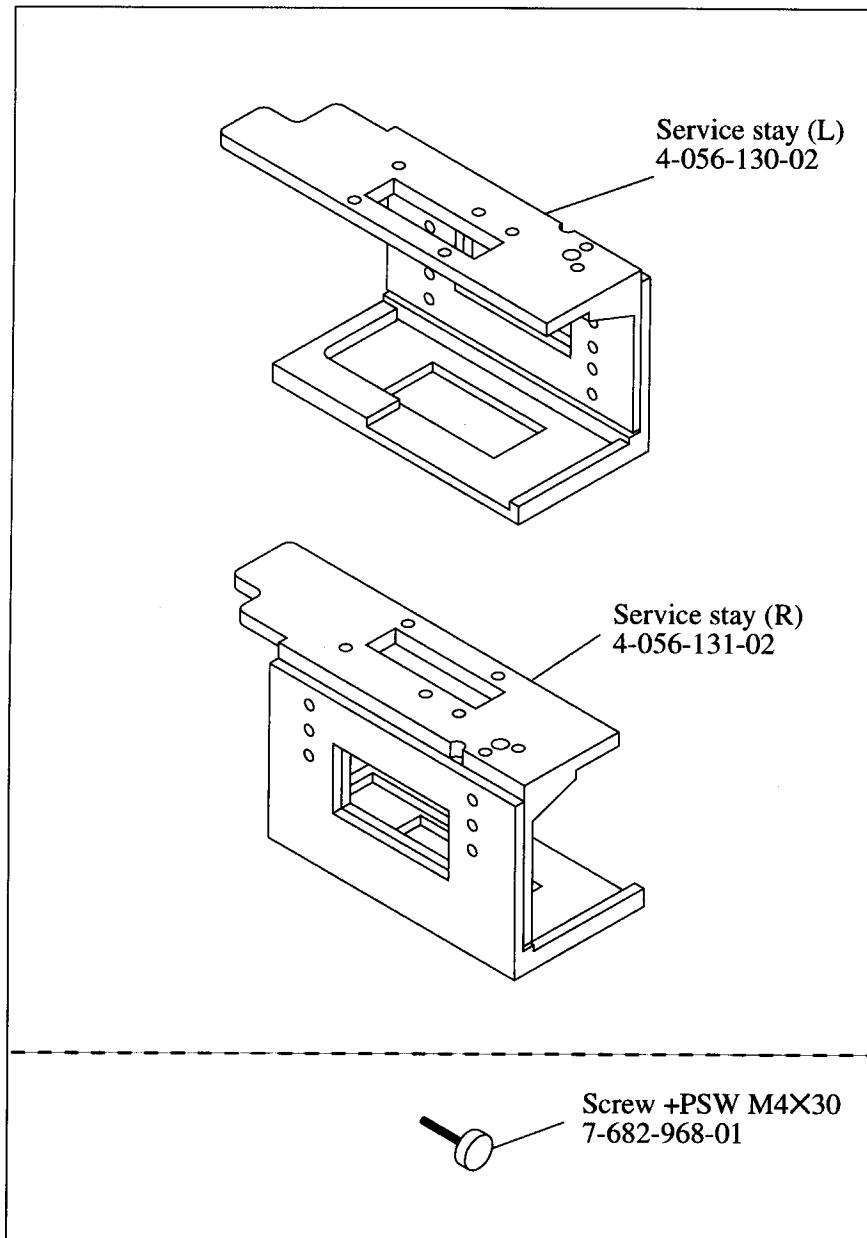

CAUTION

Removing the arrow-marked screws is strictly prohibited.
If removed, it may cause liquid spill.

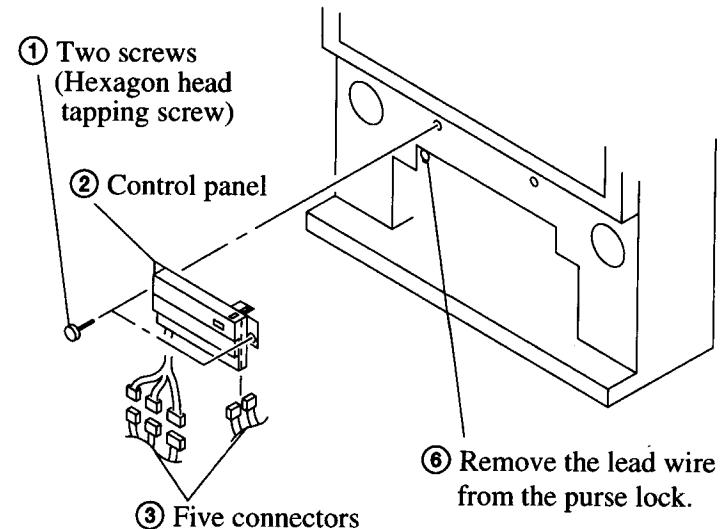

2-2.SERVICE STAY ASSY HOW TO USE AND CARRY BACK SERVICE STAY ASSY

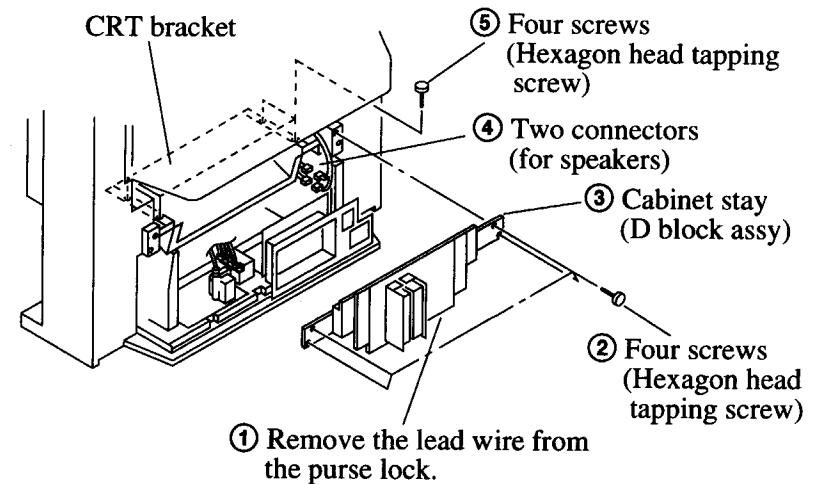

2-2-1. SERVICE STAY ASSY (X-4034-033-2)

2-2-2.CONTROL PANEL REMOVAL

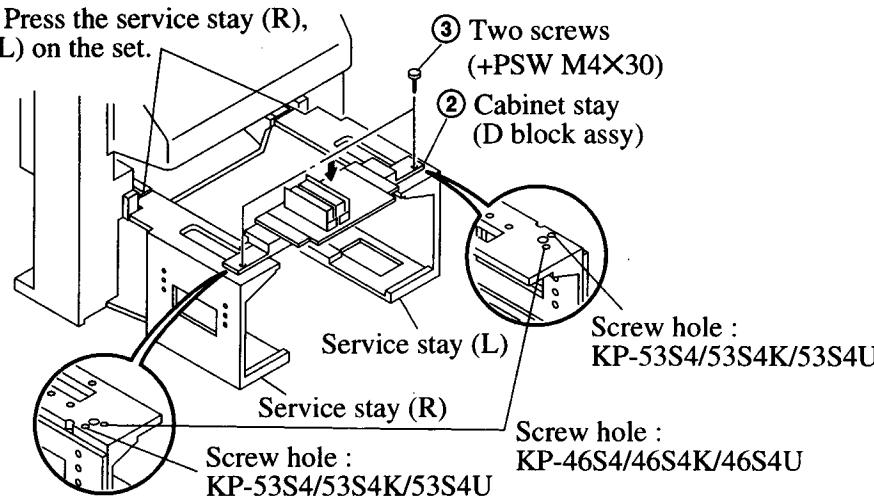

2-2-3. CABINET REMOVAL

2-2-4. SETTING OF STAY ASSY

① Press the service stay (R), (L) on the set.

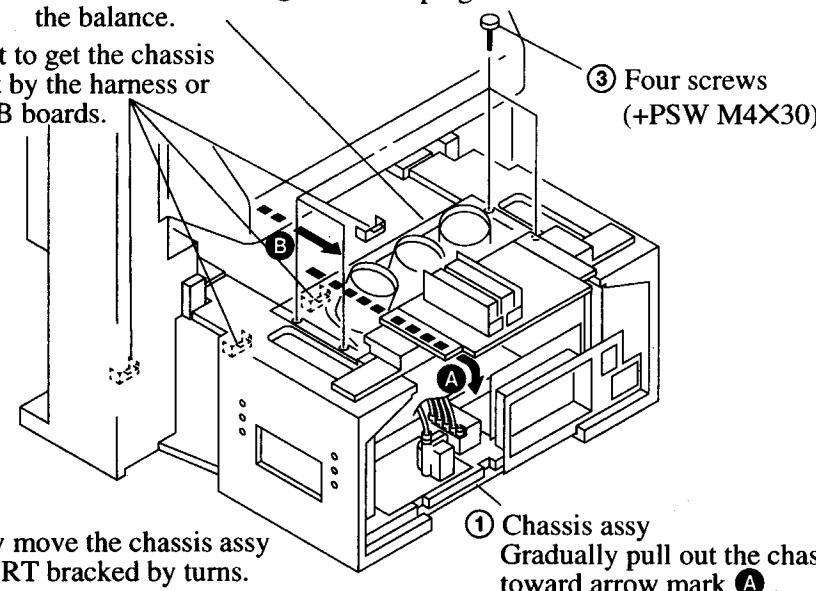

2-2-5. INSTALL A CHASSIS ASSY

② CRT bracket

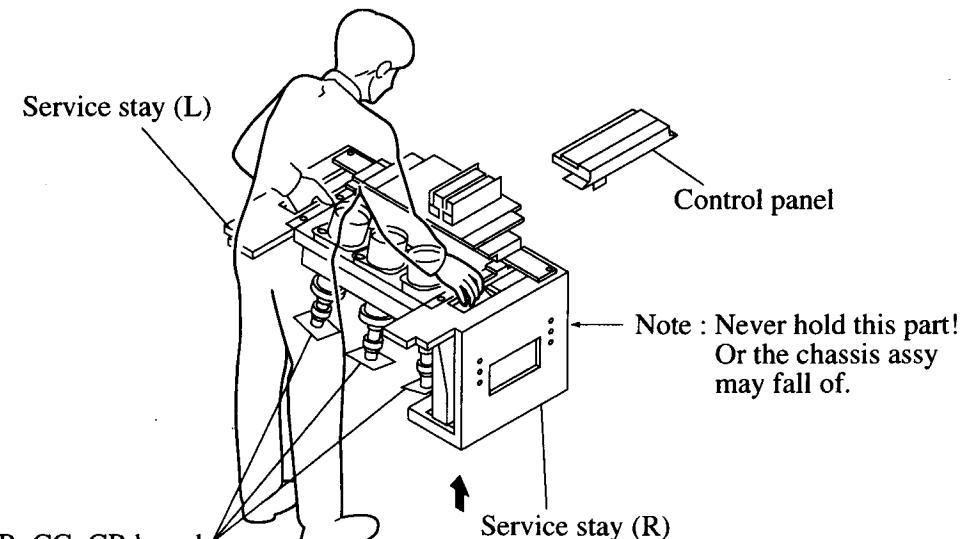

Gradually pull out the CRT bracket toward arrow mark **B** while keeping the balance.

- * Be careful not to get the chassis holder caught by the harness or CR, CG or CB boards.

- * Gradually move the chassis assy and the CRT bracket by turns.

2-2-6. CARRY BACK SERVICE STAY ASSY

CR, CG, CB board

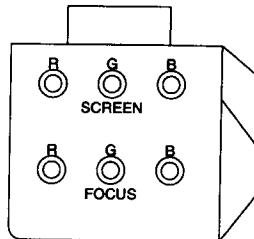

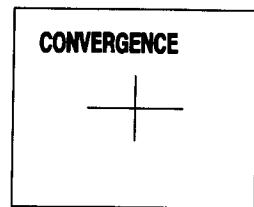

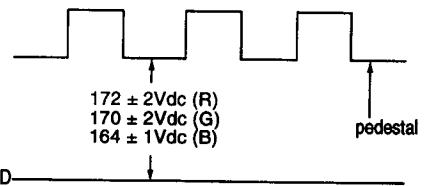

* When carrying the chassis assy, be careful not to touch the CR, CG or CB boards with your legs.

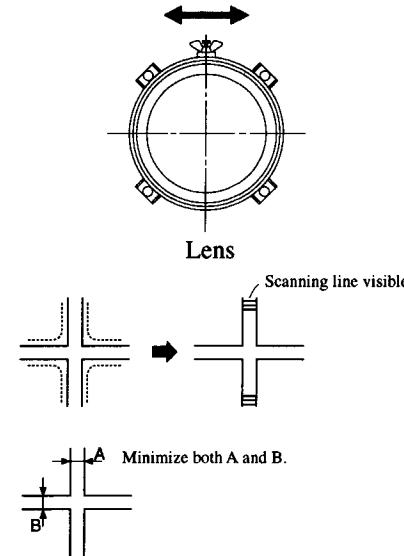

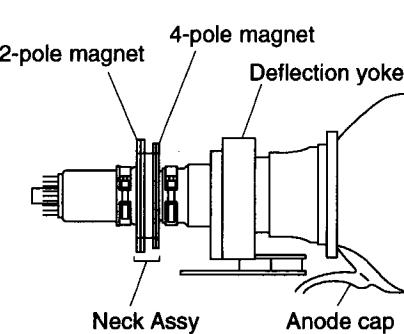

* Even with 2 servicemen, be sure to put your hands into the grooves on the top of service stays (L) and (R) to carry the chassis assy.

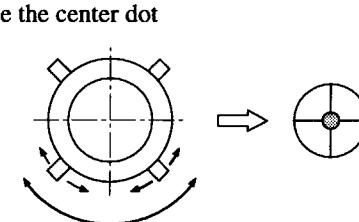

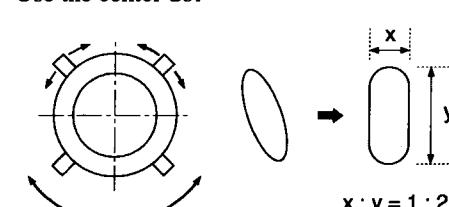

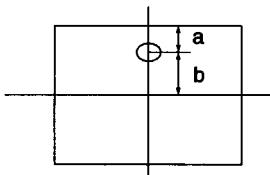

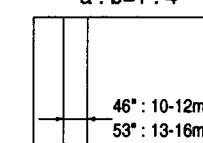

* To hold the chassis assy, put your hands into the grooves on the top of service stays (L) and (R).

SECTION 3

SET-UP ADJUSTMENTS

ADJUSTMENT ITEM AND PROCEDURE	EQUIPMENT AND SIGNAL	MEASUREMENT POSITION	ADJUSTMENT LOCATION	ILLUSTRATION AND SHAPE AND NUMBER
<p>SCREEN VOLTAGE ADJUSTMENT (ROUGH ALIGNMENT)</p> <ol style="list-style-type: none"> Turn the red VR on the FOCUS block all the way to the left and then gradually turn it to the right until the point where you can see the retrace line. Next gradually turn it to the left to the position where the retrace line disappears. <p>FOCUS LENS ADJUSTMENT</p> <ol style="list-style-type: none"> Loosen the lens screw. Set in service mode. Use VSP on the service mode menu to show only the green colour. Press the Commander Menu button and select FEATURES and CONVERGENCE to display the test signal on the screen. Rotate the green lens and align with the optimal focus point from the test signal. Use RRH from the service mode menu to set to green and red. Display the test signal and rotate the red lens to obtain the optimum focus at the point where the red and green spots overlap. Use RBH from the service mode menu to set to red and blue. Display the test signal and rotate the blue lens to obtain the optimum focus at the point where the blue and red spots overlap. Tighten the lens screw. <p>SCREEN (G2) ADJUSTMENT</p> <ol style="list-style-type: none"> Select VIDEO mode without signals. Connect an oscilloscope to the TP7103(KR), TP7203(KG) and TP7303(KB) of CR board, CG board and CB board. Adjust R to $172 \pm 2\text{Vdc}$ G to $170 \pm 2\text{Vdc}$ B to $164 \pm 1\text{Vdc}$ by rotating screen VR on the focus block. ADJUSTMENT ITEM AND PROCEDURE	EQUIPMENT AND SIGNAL	MEASUREMENT POSITION	ADJUSTMENT LOCATION	ILLUSTRATION AND SHAPE AND NUMBER
FOCUS VR ADJUSTMENT <ol style="list-style-type: none"> 1. Set in service mode. 2. Use VSP on the service mode menu to show only the green colour. 3. Press the Commander Menu button (convergence) and output the test signal. 4. Rotate the green VR on the FOCUS block and align to obtain the optimal focus point. 5. Use RRH from the service mode menu to set to green and red. 6. Display the test signal and rotate the red VR to obtain the optimum focus at the point where the red and green spots overlap. 7. Use RBH from the service mode menu to set to red and blue. 8. Display the test signal and rotate the blue VR aligning to obtain the optimum focus at the point where the blue and green spots overlap. 				 <p>Lens Scanning line visible. Minimize both A and B.</p>
DEFLECTION YOKE TILT ADJUSTMENT <ol style="list-style-type: none"> 1. Set in service mode. 2. Set to receive the monoscope signal. 3. Use VSP on the service mode menu to show only the green colour. 4. Loosen the deflection yoke set screw and align the tilt of the deflection yoke so that the bars at the centre of the monoscope pattern are horizontal. 5. After aligning the deflection yoke, fasten it securely to the funnel-shaped portion (neck) of the CRT. 6. The tilt of the deflection yoke for red is aligned with RRH on the service mode menu, and the tilt on the deflection yoke for blue is aligned with RBH on the service menu, is aligned the same as was done for green. 	Monoscope pattern			 <p>2-pole magnet 4-pole magnet Deflection yoke Neck Assy Anode cap</p>

ADJUSTMENT ITEM AND PROCEDURE	EQUIPMENT AND SIGNAL	MEASUREMENT POSITION	ADJUSTMENT LOCATION	ILLUSTRATION AND SHAPE AND NUMBER
2-POLE MAGNET ADJUSTMENT 1. Set in service mode. 2. Set to receive the dot pattern signal. 3. Place the caps on the red and blue lens so that only the green colour is showing. 4. Turn the green VR on the focus block to the right and set to overfocus to enlarge the spot. 5. Now align the 2-Pole Magnet so that the enlarged spot is in the center of the Just Focus spot. 6. Align the green focus VR and set for just (precise) focus. 7. Perform the same alignment for red and blue.	Dot pattern		2-pole magnet	Use the center dot 
4-POLE MAGNET ADJUSTMENT 1. Set in service mode. 2. Set to receive the dot pattern signal. 3. Place the caps on the red and blue lens so that only the green colour is showing. 4. Turn the green VR on the focus block to the left and set to underfocus to enlarge the spot. 5. Now align the 4-Pole Magnet so that the enlarged spot becomes a perfect circle.	Dot pattern		4-pole magnet	Use the center dot  $x : y = 1 : 2$
DEFOCUS ADJUSTMENT 1. Receive the crosshatch signal. 2. Adjust the FOCUS knob so that the crosshatch pattern vertical line width is as in the figure on the right. 3. Blue only defocus Adjustment.	Crosshatch pattern	FOCUS VR • RED • GREEN • BLUE	• Focus adjustment point  $a : b = 1 : 4$  $46^\circ : 10-12\text{mm}$ $53^\circ : 13-16\text{mm}$ without flare	

ELECTRICAL ADJUSTMENT BY REMOTE COMMANDER

By using Remote Commander (RM-831), all circuit adjustments can be made.

NOTE : Test Equipment Required.

1. Pattern Generator
2. Frequency counter
3. Digital multimeter
4. Audio oscillator

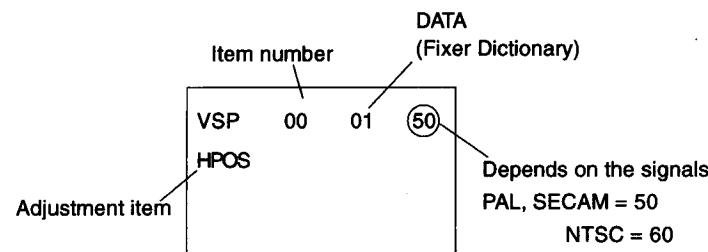

1. METHOD OF SETTING THE SERVICE ADJUSTMENT MODE

SERVICE MODE PROCEDURE

1. Standby mode. (Power off)
2. **DISPLAY** → **5** → **VOL (+)** → **TV POWER** on the Remote Commander.
 (**[+]** → **[5]** → **[△]** → **[□]**) (Press each button within a second.)

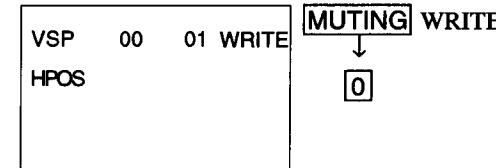

- 23 -

SERVICE MODE ADJUSTMENT

3. The CRT displays the item being adjusted.
4. Press **1** or **4** on the Remote Commander to select the item.
5. Press **3** or **6** on the Remote Commander to change the data.
6. If you want to recover the latest values press **7** then **0** to read the memory.
7. Press **MUTING** then **0** to write into memory.

SERVICE ADJUSTMENT MODE MEMORY

8. Press **8** then **0** on the Remote Commander to initialize.
9. Turn set off and on to exit.

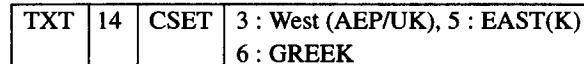

2. AFTER IC401 (NON VOLATILE MEMORY) REPLACEMENT

1. Enter to Service Mode.
2. Press **5** and **0** of the commander to initialize data.
3. Adjust standard data to call each item number with **3** and **6** of the commander.
 Write the data per each item number (**MUTING** + **0**)
4. Select CP2 items menu and respectively set the data with **3** and **6** of the commander.

	Item number	Adjustment item	AEP	UK	K (OIRT)
CP2	03	B/G	1	1	1
	04	I	1	1	1
	05	IRE	0	1	0
	06	D/K	1	0	1
	07	AUS	0	0	0
	08	L	1	1	1

Press **MUTING** + **0** of the commander to write the data.

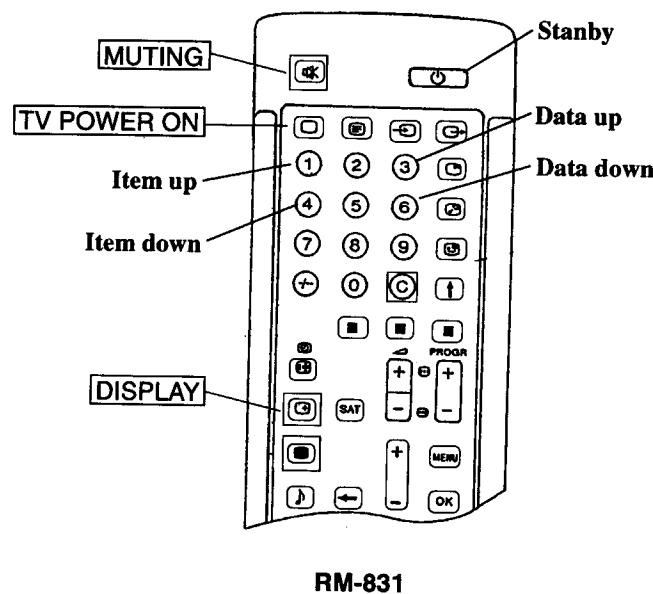

5. Select item CSET of TXT menu and set the data with **3** and **6** of the commander.

Press **MUTING** + **0** of the commander to write the data.

6. Press **8** and **0** of the commander to make the user control data standard.

3. ADJUST BUTTONS AND INDICATOR

4. SERVICE MODE LIST

This detailed circuit diagram shows the internal structure of the Sony 1-657-658-12 integrated circuit. The diagram is organized into ten horizontal columns, labeled 1 through 10 at the top. Column 1 contains power supply and ground connections, along with various resistors (R4011-R4059) and capacitors (C4001-C4059). Column 2 features several operational amplifiers (IC4001, IC4002, IC4003, IC4004, IC4005) and associated components like resistors (R4010-R4058) and capacitors (C4002-C4058). Column 3 includes a large central block with multiple transistors and resistors (R4059-R4099, C4059-C4099). Column 4 contains more resistors (R4100-R4192) and capacitors (C4099-C4192). Column 5 includes resistors (R4193-R4203) and capacitors (C4193-C4203). Column 6 contains resistors (R4204-R4208) and capacitors (C4204-C4208). Column 7 contains resistors (R4209-R4213) and capacitors (C4209-C4213). Column 8 contains resistors (R4214-R4218) and capacitors (C4214-C4218). Column 9 contains resistors (R4219-R4223) and capacitors (C4219-C4223). Column 10 contains resistors (R4224-R4228) and capacitors (C4224-C4228). Various connection points are labeled with letters A through Z and numbers 1 through 10. A prominent 'SONY' logo is located in the center of the chip. Numerous component designators such as CN4001, R4001, C4001, and IC4001 are scattered throughout the layout.

NOTE:

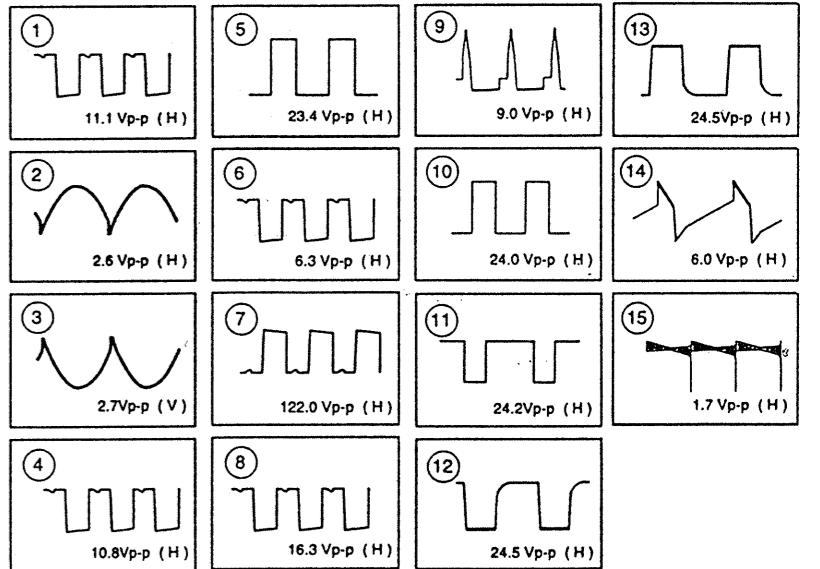

The circuit indicated as left contains high voltage of over 600 Vp-p. Care must be paid to prevent an electric shock in inspection or repairing.
